We are so happy our profile has found its way to you! We are Scott and Ericka. We live in Rhode Island with our three sons Kingsley, Bryson, and Wilder. We are excited to welcome your child into our family and share with them our love for travel, everyday adventures, and experience new and exciting things together! We have always wanted to adopt and are honored you would consider us for your child. We look forward to speaking with you!

# About Us

We have been married for almost 10 years and have a strong marriage and friendship. We both consider ourselves to be funny people and try to not take life too seriously. We use humor and faith to get through the hard stuff and always focus on being grateful for our blessings! We value family, being present in the moment, and living our lives with compassion and generosity.

We love to travel and see new places and things. Whether it be exploring underground caves in Texas, wandering a street fair in New York City or tubing in New Hampshire, we love to do it all.

Scott is a physician and one of those people that everyone instantly loves. He is funny, kind, incredibly generous and a wonderful father and husband. He's one to help others and never wants a thing in return. He works hard every day and still comes home excited to read Bryson a story, answer Kingsley's endless list of questions, and play a mean game of "BOO!" with Wilder. Scott enjoys playing sports, games and having long conversations with our boys to teach them some of his wisdom. In his free time, Scott enjoys collecting baseball cards and sports memorabilia. He is excited to share his love of sports and vast knowledge with our next child!

Ericka is a Stay-at-home Mom to our three boys and loves every minute of it. She is loyal, kind, resilient and has always wanted to be a mother! She is very hands-on and loves the daily tasks of caring and raising our children, driving them to school, helping them with homework, watching them in their after school activities and getting involved in the things the boys like. Ericka loves animals and enjoys doing anything creative including DIY projects and repurposing/refinishing furniture. She loves sharing her passion for animals with the boys and I know she is excited to share it with our next child as well!

# About Our Home

We moved into our custom home last year and have three dogs and a bird. We have a large open kitchen attached to a family room, a big dining room where we host Thanksgiving every year, and the kids all have their own rooms. We have a basement playroom just outside our home theater and our big backyard will be finished this spring with a play structure and pool. We built our home to be family-friendly and kid-welcoming! We live near our children's school and there are a lot of kid-friendly activities in our area. Playgrounds are everywhere, parks, zoos, trampoline parks, arcades, the ocean, and museums are all nearby so there is never a shortage of things to do!

# About Our Family

We have three amazing boys. Kingsley is 10 and loves video games, practicing Brazilian Jui Jitsu and has a desire to know everything. He is generous, thoughtful, confident and a little shy. Bryson is 6, he is silly, sweet and funny. He's often found playing with Wilder because he loves being a big brother. Wilder is almost 2 years old. He smiles and laughs all the time and loves looking for an adventure. Our boys are so excited to teach their new sibling all about the things they love, to hold them and make them laugh and smile.

Scott's parents live with us in an in-law apartment and it is wonderful to have them so close. It's great to have the extra support and the kids love it. Ericka's parents, brother, and sister all live out of state yet visit often. It's not uncommon for family to visit us a few weekends a month. We all love getting together for our yearly family vacation! They are so excited about welcoming your child into the family and all are looking forward to surrounding them with love.

# Letters from some of the people we love....

Dear Birth Mother,

I am writing this letter to tell you why I feel Scott and Ericka would make the best adoptive parents for your baby. These words are written from my heart, as I can only imagine the emotional turmoil you are going through to make this very important decision.

I am Ericka's mother. As Ericka's mother I cannot say enough good things about her and my son in law. They are an amazing couple and they are also amazing parents. I would say this even if they were not my daughter and son in law. Ericka and Scott possess an almost magic between them. I have watched them fall deeper in love with each other over the years they have been together. They have a love that has endured heart wrenching loss. Their relationship has only grown stronger through the crisis of losing two premature babies. Through these tragedies they have become stronger as a couple.

Scott and Ericka are loving, spiritual

caring adults. They both possess a sense of humor. They are outstanding citizens of their community. They provide stability, structure, love and guidance to their three boys.

By choosing Scott and Ericka you need to know your child will not only be loved, your child will be given every opportunity to grow up to be a loving, kind, caring, successful adult. An adult with values and a belief in God. Your child will have everything you have dreamt for him/her plus more.

By choosing Scott and Ericka your child will be blessed with three big brothers. These three boys are the greatest little boys you could ever meet. They love with their entire hearts. They are best friends, comrades and yes at times enemies, But the enemies time is very short lived. Having 3 brothers ~~that~~ your child will always have someone to teach, play and protect him/her.

By choosing Scott and Ericka to be your child's adoptive parents he/she will grow up in an environment of many Aunts, Uncles, cousins, grandparents, dogs, cats and friends, who will love him/her very much. I do hope you choose my daughter and son in law to provide a loving, stable, healthy, spiritual environment for your baby.

We are all very excited to meet your baby and have him/her join our family.

My very Best  
Thoughts and prayers  
to you.

## Letters from some of the people we love...

It is so apparent the love that Ericka and Scott hold within their hearts for each other. That love spills out generously to their children. Their home is filled with an abundance of love. Their hope and dream is to add to their family's love by being blessed with another child. Though Ericka and Scott have within their hearts an immense love for each other and their children, they have also know great loss and tragedy, a tragedy in which no soul should ever have to endure. The loss of a child. They not only suffered this loss once but twice when two of their infant sons were taken to God too soon. The fact that these two people continue to fearlessly love, and press on trusting in fate's plan for them, speaks volumes to their courage and love. Qualities that not only make them remarkable people, but wonderful parents.

Warm Regards -

# Letters from some of the people we love...

Dear Birthmom:

By now you've probably read numerous letters stating how amazing Scott + Ericka are as parents so I'll focus my note on who they are as people... I myself married into their family since day 1, they welcomed me with open arms. They included me in everything and made me feel as though I belonged. To them family is more than just blood - it's defined by love. It's about being silly together, about being present when you are together and connected when you are apart... it's grieving together and sharing in all of life's moments.

Scott and Ericka are honest and generous. The type of people that "pay it forward" in a restaurant by picking up the tab for a family in the next booth over... The type that selflessly put the needs of their children before their own.

Scott and Ericka will give your child a life full of unconditional love, emotional and financial support, as well as endless opportunities to be silly and just be a kid.
