

Hello! Thank you very much for taking the time to read our profile. We truly appreciate you considering us as parents for your child.

We have longed to be parents for some time and feel becoming a parent would be one of the greatest joys of our life. We believe we could be a good father and mother.

### ***About Tony and Etsuko***

We both grew up in Japan and came to the United States more than 25 years ago. We grew up in the peaceful countryside. We enjoy eating seafood and believe Japanese cuisine really helps to maintain good health in a child.

### ***Education and work***

Tony and Etsuko both graduated from University in Japan and Tony also graduated from a university in Los Angeles. We were very studious students and earned good grades. We believe education is very important in our life, so we want to encourage our child to obtain as much education as possible. Currently we work at the same company. Tony is a general manager and Etsuko is in accounting. It is small Japanese company. Because we

work different shifts, there would be no problem to care for our child and take him or her to school.

### ***Home***

We live in Mission Viejo which is located in Orange County, California. It's about 30 minutes south of Disneyland. This is a very safe and peaceful city. We live in a nice 2 story house with 5 bedrooms. We have one dog and plenty of space for a child to play.

There is good elementary school just 5 minutes from our house. We are surrounded by wonderful neighbors.

## Family and friends

We don't have any family or relatives here in the United States but we have lots of nice friends. Our friends are very kind, generous and are always willing to help when we need it.

## ***Hobbies***

Etsuko is learning Koto instrument and she can play well now. She performs for small gatherings once in a while.

Tony likes hiking and goes to Saddleback Mountain one a month.

Together, we like to visit national heritage sites and have visited around 20 sites already. We want to take our child to around the world and nurture our child to be a worldwide citizen.

## ***Contact after birth***

We are open to whatever wishes that you may have after the birth including letters and pictures.
